Junior Hockey

Overview on Kingston Jr Hockey Long Term Billeting (Season Long)

It is recognized that some youth players do leave home to play hockey in a location away from their parents. The Kingston JR's are committed to developing their team and hockey program by attracting the best players possible. It is essential that the Jr. Ice Wolves scout and seek the best talent not only within close proximity of Kingston (ie Quinte, Peterborough, and Rideau areas), but also the GTA, Northern Ontario and even outside of Ontario or Canada. In these circumstances, the JR. Ice Wolves team, through the head coach, arranges for the player to live with a host or billet family. Billeting is when a local family welcomes a visiting player into their home. The family offers a safe, supportive environment that provides stability for the player, allowing her to focus her efforts on her academic and athletic development and achievements. The player would be staying with the billet family for the majority of the academic year while attending school and training with the team. When young players live outside their homes, risk to the player and host families is increased if guidelines are not implemented and adhered to. GKGHA must have written procedures and policies in place to govern the arrangements whenever there is one or more billet per Hockey Canada.

Why Billet?

There are many rewards in billeting for both the hockey player and the billet family. For the billet family, it means opening up their home to a young hockey player and giving them an opportunity to share their family's experiences. For the player being billeted, it is a chance to share different cultural and social experiences. For the team as a whole, it is a time to make new friends, explore new things, and become stronger people and players. Billeting can be a wonderful opportunity to build a lasting relationship with a talented and dedicated young athlete. Billet families learn about the female hockey game from the perspective of the player and her unique position on the team. It offers an opportunity for a local family to see a young person grow in confidence and ability over a very short period of time. In addition, a female hockey player can be a great role model for younger family members, showing them what can be achieved with hard work and dedication. Many families who have billeted in the past stay in touch with players and follow their careers as they move to higher levels of play.

Expectations

All billet parents must undergo an in-home interview and complete a criminal records check. The team may conduct a tour of the home and inspect the prospective player's room prior to being accepted as a billet family. All potential billet parents must be satisfied with the standards as set out by their own comfort and peace of mind. We

encourage an open and respectful relationship between host families and the player's parents. Creating clear guidelines for the host family and the player, specific to household rules, curfews, mealtimes, chores, duties and responsibilities, and discipline is essential. The team will ensure that players are fully aware of their ability to contact team staff 24 hours a day if they have any issues with the host family. Billet families must be able to provide the player with her own room where she has privacy and a quiet place to study. The bedroom, which should not be a shared room, must include a suitable bed (not a pullout couch), and a dresser and/or closet for personal items, in addition to a bathroom nearby. Access to a desk or study area is also essential. Players will also need easy access to laundry, the internet and television. Hockey is a high intensity sport with rigorous training both on and off the ice, including both aerobic and strength training. Consequently, these players require more food than the average teenager and the host family is required to provide nutritious meals and snacks that meet the needs of the athlete. Although host families are encouraged to follow their normal routines for mealtime, regular meals enjoyed together at set times is the preferred practice, taking into account practice and game times. All daily transportation to team practices, games and events are provided by the host family unless the player is of age and has her own means of transportation. Host families are not responsible for driving the player to school and/or work. The JR Ice Wolves will also work with the parents and school to provide any academic support that may be needed. Host families are encouraged to keep in mind that these players are still young women in need of rules, guidance, friendship and acceptance. Hosting a hockey player takes time, patience and energy but the rewards far outweigh the commitment.

APPENDIX 5 – An Important Word about Hazing

Hockey Canada defines hazing as “an initiation practice that may humiliate, demean, degrade, or disgrace a person regardless of location or consent of the participant(s)”.

Hockey Canada has no tolerance for hazing rituals and very strong regulations against these types of behaviours. As a host family we look to you to work with your team to assist us in eliminating hazing from the hockey environment. The role of a billet parent is essential when it comes to maintaining the safety of the player living with you.

Remember, what might seem harmless to one player, may be devastating to another.

Hazing in most cases occurs at team gatherings and initiation and humiliation of the rookies is at the forefront. The team gathering may be talked up to be a night of “team bonding” or a “welcome party” however in many cases, the exact opposite ensues and hazing becomes the focus.

If a player approaches you about hosting or attending a team function or you become aware of an unsupervised team party it is important to note that:

- Many of these players may be underage and are legally not allowed to drink
- If the party is being held in your home or at a location you are responsible for you are responsible for any consequences of these types of events.
- It is your responsibility to ensure proper supervision and guidelines are put in place regarding the activities. ***Hazing type activities will not be tolerated in any form.***

Hazing may also occur during other team activities such as road trips but once again team staff and administrators must realize that hazing of any form will result in consequences to those involved and/or with knowledge of these types of behaviours.

As much as it is our responsibility to ensure a players safety on the ice it is also our job ***to maintain a safe environment off the ice as well. Hockey Canada makes its stance on hazing very clear within its regulations.***

Communication Tips

- Create an atmosphere that invites communication with your player(s)
- Watch for signs that your player may be uncomfortable with a situation
- Respond responsibly to any concerns you may have regarding your players safety
